Meet Inperium

Inperium, Inc. brings together health and human services providers into a deliberately structured constellation designed to strengthen each organization without eroding its independence.

Unlike traditional business combinations, affiliates retain their identity, leadership, and control over day-to-day operations while gaining the infrastructure, scale, and support needed to grow sustainably without compromising mission or values.

Our Model

Inperium is a 501(c)(3) nonprofit and a 509(a)(3) supporting organization. We strengthen mission-driven nonprofits through innovative relationship structures that create shared infrastructure, access to capital, and long-term financial sustainability.

Affiliation

Our most common structure, affiliation is well suited for organizations where administrative overhead limits investment in programs and when leadership is seeking a sustainable solution that preserves legacy, values, and community connection.

Merger & Acquisition

Typically appropriate for organizations seeking significant structural change, including the consolidation of services, governance, or operations with another organization. This path may involve integration of brand, leadership, or identity in service of scale, efficiency, and sustained impact.

Transition Services Agreement

Allows Inperium to deliver core infrastructure and financial support during periods of instability—strengthening core systems, addressing near-term risk, and creating the foundation for long-term sustainability while working collaboratively toward the appropriate next structure.

Get to Know Inperium

Mission

To be the world's premier deliberative, scalable, and most efficient consolidator and constellation of health and human services organizations

Strategic Pillars

- Deliberative Constellation Growth
- Affiliate-First Operating Model
- Innovation through Collaboration

Values

Collaboration

Collaboration is foundational to our model. We work alongside, not above, the organizations we support to solve problems, share expertise, and promote transformation.

Excellence

We hold ourselves to high standards. Our role is to deliver reliable, high-quality support that improves performance and strengthens organizations over time.

Transparency

Transparency builds trust. We communicate clearly and directly, especially when decisions are complex or stakes are high.

Diversity

We respect and value differences across people, organizations, industries, and perspectives. Strong systems are built from diverse experiences and points of view.

Innovation

For us, innovation means practical progress. We develop thoughtful solutions that help affiliates adapt, grow, and operate with integrity in a changing environment.

A New Path Forward

Escape The Cycle

Nonprofits align with a larger organization with stronger market power

↓

Insurance market and enterprise technology providers offer favorable rates to larger organization

↓

Lenders are willing to provide capital for growth

↓

More budget and focus available for mission-driven programs

The Inperium Difference

Tailored relationship structures	Create a flexible, customizable platform agreement unique to your organization's circumstances and focused on upholding mission, identity, staff, and board
Simplified, lower-cost operations	Lower back-office general & administrative expenses through scale economies, facilitating reinvestment of operational surplus into program expansion and service quality improvement
Access to capital at favorable rates	Access larger lines of credit and cash that enable opportunities for growth into new geographies or service lines
Sustainable financial standing	Advance revenues, net assets, and debt reduction or refinancing
Growth opportunities for staff	Provide professional advancement opportunities and reduce staffing vacancies, improving employee experience and retention
Connected network of expert leaders	Practice innovative collaboration and resource sharing across like-minded organizations with a "global local" approach

Benefits of Affiliation

Affiliation allows organizations to remain programmatically independent while gaining shared infrastructure, administrative support, and improved access to capital. The model is designed to strengthen the organization behind the scenes so leaders can focus on mission, services, and long-term sustainability.

Our customized agreements support affiliates through:

Back-office Efficiency

Through Inperium's centralized shared services (Apis Services), affiliates benefit from the size and efficiency of large-scale transaction processing, improved business processes, and centralized procurement of critical services.

Investment

The positive cash flow created by the Inperium model supports growth initiatives and capital plans, allowing affiliates to improve and expand services.

Program Management Expertise

Affiliates benefit from Inperium's expert talent in their specific service areas, leveraging their vast knowledge to institute best practices and shared program management to improve service while reducing cost and risk.

Talent Acquisition and Development

Because of Inperium's scale and ability to share talent across affiliates, each organization can attract and retain field experts that they otherwise could not.

Data and Strategy Management

Inperium's scale and resources allow for best-in-class systems such as ADP and Oracle to ensure timely, cost-effective, and accurate data for data driven decision-making and optimizing business strategy.

Experienced Leadership

Inperium's executive team brings extensive and varied experience to its mission. Many on the team previously led organizations that affiliated with Inperium and have witnessed firsthand the benefits of Inperium's model, and several have retained key executive positions at those affiliates.

Apis Services

A Wholly-Owned Subsidiary of Inperium

ABOUT

Apis Services provides a progressive platform for delivering shared services to Inperium and its constellation.

Apis Services delivers cost-effective general and administrative services in human resources, finance, legal, information technology, and fleet and facility management to the constellation. This allows affiliate organizations to focus their daily time and energy on improving their operational missions.

Human Resources

Anchors

An Inperium Foundation

ANCHORS
AN INPERIUM FOUNDATION

ABOUT

Born in 2019 from a dream to give back, Anchors is a pillar of strength, hope, and compassion for people and families impacted by cancer. Our mission is to provide unwavering support through comfort, care, and practical assistance during their time of need.

We believe no one should face this journey alone. We strive to ease the burdens that come with a cancer diagnosis, ensuring that patients and their loved ones feel seen, supported, and uplifted. At Anchors, we offer a foundation of stability when it's needed most—so we can stand strong together.

Essential Services
Assistance with grocery shopping, prescription pickup, household cleaning and cooking, etc.

Transportation
Support getting to and from cancer-related appointments.

Lodging
Providing a comfortable place to stay and relax for patients and families traveling to treatment.

Ovarian Cancer Research
Funding for scientific innovation to improve detection, treatment, and outcomes for those affected by this silent disease.
